# SEN. NORRIS WILL FIGHT FOR HIS OWN BILL

## CHICAGO'S BIG ROUND-UP OF THUGS OPENS

### Holland-Blow Mill Will Be Rebuilt At Once

### NO MORE HEARINGS ON MUSCLE SHOALS SENATOR DECLARES

Will Present His Bill  
and Urge Adoption  
Nebraskan Says

### HE WILL NOT HELP OTHER PROPOSALS

Denies That Fertilizer  
Is Most Important  
Feature of Project

(Associated Press)  
WASHINGTON, Nov. 26—Chair-  
man Norris, of the senate agricultural  
committee, who led the fight  
against Henry Ford's Muscle Shoals  
bid, and succeeded in having his own  
bill reported by the committee, de-  
clared today that as far as he was con-  
cerned, Muscle Shoals was a closed  
issue and he would not re-open the  
hearing unless ordered to do so by  
the senate.

He said he would present his bill  
to the senate and argue for its pas-  
sage although he had heard of num-  
erous new proposals for the develop-  
ment of the Alabama properties.

He said he would refuse to give  
them any consideration as he felt suf-  
ficient opportunity had been offered  
for the presentation of offers for  
Muscle Shoals and it was now time for  
congress to act.

The chairman disagreed with a num-  
ber of senators who regard the pri-  
mary purpose of Muscle Shoals as  
for the production of nitrogen for am-  
munition and fertilizer. Senator Norris  
said that at present the process of  
manufacture of fertilizer is not suf-  
ficiently perfected to permit the gov-  
ernment to underbid the private man-  
ufacturers and it would be foolish  
for the government to plan to pro-  
duce larger amounts of fertilizer when  
there was no market for it.

Senator Norris pointed out that his  
bill set aside a liberal appropriation  
to convert one of the nitrate plants  
into a laboratory for experimentation  
in the fertilizer manufacture. The  
solution of the high price of fertilizer  
he declared, lies in concentrated fer-  
tilizer.

So far, he said, no practical pro-  
cess has been developed to produce  
satisfactory fertilizer in concentrated  
form and as a result high freight  
rates are added to the cost of the  
production, because the manufacturer  
is forced to mix from 80 to 90 per  
cent of sand and dirt as sila in the  
finished product.

Until such a process is developed,  
the Nebraska senator asserted it will  
be necessary to make some use of  
the vast power available at Muscle Shoals.  
The solution, he said, is in the dis-  
tribution of the power over the South-  
ern territory, giving the Southern  
manufacturer and householder the  
benefit of cheaper power rates.

He predicted that when the pro-  
cess for fertilizer manufacture had  
been perfected it would be found that  
power was only a secondary need for  
its production and it would not be  
possible to use all of the power gener-  
ated on the Tennessee river for  
fertilizer.

The chairman explained that his bill  
provided for the construction of dam  
number three and storage reservoirs  
on the headwaters which would give  
the Tennessee river a more uniform  
flow, assuring a year around supply  
of power and aiding navigation.

He declared it was not economy to  
stop with the building of one dam and  
the other should be constructed by all  
means, so that all of the available  
power on the stream could be utilized.

### MacMurray Is Named Aide to Hughes

John Van A. MacMurray, of  
Princeton, N. J., Chief of the Far  
East Division of the State Depart-  
ment, has been appointed Assistant  
Secretary of State by President  
Coolidge, succeeding the late A. A.  
Adoo. Mr. MacMurray is forty-  
three years of age and has been  
attached to the diplomatic service  
in Peking and Tokio.

### EQUIPMENT DAY, WILL BE OBSERVED

### Special Offering will Be Taken by Church On December 14

The general assembly of the Pres-  
byterian church U. S. has designated  
Sunday December 14th as the day on  
which an offering will be taken for  
the equipping of the missionaries of  
this church, at home and abroad. The  
goal is set for \$500,000; half of this  
sum is to go to foreign missions,  
and half to home missions.

The general council of home mis-  
sions has agreed to distribute this  
amount on the basis of 30 per cent  
to assembly's home missions and 20  
per cent to Synod's home missions. In  
Brazil, China, Africa, Japan, Korea,  
Mexico and Southern Presbyterian  
church has 519 missionaries at work  
in 52 stations and 1002 outstations.  
those in authority have stated that  
this church has the best missionaries  
and the poorest equipment for them,  
of any Christian denomination.

And now the church is called upon  
to help build chapels, homes, hospi-  
tals, and in many cases to furnish  
water supplies to stations. The as-  
sembly's home mission committee of  
this church operates in 16 southern  
states, reaching people of 12 different  
nationalities with more than 800 mis-  
sionaries. The church is called upon  
to erect additional church buildings  
with suitable equipment for the suc-  
cess of this great work, which grows  
more urgent every year. Christian  
Endeavors and other young people are  
asked to give definitely on December  
14th to the Kwangju Girls' school in  
Korea and also to Beechwood Sem-  
inary at Heidelberg, Kentucky.

### SISTERS FOUND DEAD

HOULTON, Maine, Nov. 26—Cyn-  
thia and Neotia Foster, sisters, 14 and  
10 years old, were found dead last  
night in a shack occupied by Harry  
Williams in the town of Postville,  
18 miles from this town according  
to a report to the police here today.  
Williams who was arrested after an  
all-night search, is being held by the  
townspeople pending the arrival of the  
sheriff.

### CORONER'S JURY TO BEGIN A PROBE OF DEATH OF BANKER

Body Is Found By Posse  
In Mountains Near  
Cabin Of Girl

### NOTE DISCOVERED NEAR THE SCENE

Death Believed to Have  
Been Caused By Blow  
On Back Of Head

(Associated Press)  
SAN BERNARDINO, Cal., Nov. 26—  
Miss Mary Watkins approaching  
the witness stand at a coroner's in-  
quest, to be held here today, confess-  
ed ignorance of the circumstances sur-  
rounding the death of her employer,  
William R. Fee, Alhambra bank pres-  
ident.

His body was found yesterday by a  
searching party in the San Bernar-  
dino mountains, near a cabin main-  
tained by Miss Watkins.

Sheriff W. R. Shay believed the  
banker was murdered.

Mr. Fee had been missing since last  
Saturday, when he journeyed to the  
mountains with his wife. The body  
of Mr. Fee was found 50 yards from  
the cabin occupied by Miss Watkins  
and a half mile from the cabin oc-  
cupied by the Fees.

Miss Watkins said that an affec-  
tionate note, signed Mary, found near  
the body of the banker was without  
significance.

Back of the banker's left ear was  
found a small skull fracture, such as  
might have been caused by a blow  
from a sandbag, or blackjack.

Others subpoenaed to testify include  
Joseph Walker, Miss Polly Bell and  
Paul Kennedy, who were at Miss  
Watkins' cabin Saturday night and  
Sunday and Mrs. Fee, who caused a  
search to be started for her husband  
when he disappeared.

### TROOPS CONTINUE TO GUARD NEGRO

### Crowd Gathered At the Jail But Disorder Still Is Absent

(Associated Press)  
NEWBURN, N. C., Nov. 26—  
Troops today continued to guard Cra-  
ven county jail where John Goggette,  
negro, charged with having fatally  
injured Edna Williams, 12 year old  
school child, when his automobile ran  
over her on a public highway about 11  
miles from here late yesterday after-  
noon, is being held. The troops were  
ordered out by Governor Morrison last  
night on request of Sheriff J. D. Wil-  
liams, of Craven county following re-  
ports received from the section near  
the little girl's home that attempts  
might be made to lynch Goggette.

Several hundred persons gathered  
near the jail during the evening, but  
there was no disorder.

Goggette is said to have been trav-  
eling at a fast rate of speed when his  
car struck the little girl, who was on  
her way from school with several com-  
panions.

She was brought to a Newburn hos-  
pital but died shortly after reaching  
there. A warrant was sworn out for  
the negro's arrest by her grandfather.  
Sheriff Williams said information  
reaching him was to the effect that  
Goggette stopped after the accident  
and offered to bring the girl to a hos-  
pital.

The coroner's jury will meet today  
to investigate the killing.

### BURNED PLANT TO BE REPLACED WITH MODERN MACHINES

The Decision to Rebuild  
Announced Today  
By J. N. Gibson

### OLD EMPLOYEES WILL BENEFIT

Much of Reconstruction  
Will Be Done By  
Plant Workers

The decision today of the Holland-  
Blow Stave company to re-build their  
plant partially destroyed by the re-  
cent fire, came as another reason for  
Thanksgiving to the people of the  
Twin Cities.

The management arrived at the de-  
cision late yesterday, and work was  
begun this morning, according to a  
statement issued by vice president J.  
N. Gibson this morning.

The plant will be replaced at a cost  
upward of \$25,000 and it is proposed  
to equip it in the most up-to-date  
manner. The completed factory will  
be almost entirely new, and it will be  
equipped with practically the same  
type of machinery as it had original-  
ly.

The work of rebuilding will be rush-  
ed as much as possible to take care  
of demand for its products. It is es-  
timated that operation will begin by  
Christmas, and the work will be prac-  
tically finished within 60 days.

V. J. Blow, president of the cor-  
poration, before returning to his home  
in Philadelphia Tuesday afternoon,  
stated that he was well satisfied with  
all adjustments. He said he believed  
the supply of material for operation  
here to be sufficient for 5 to 10 years.

The local mill was the original plant  
of the Holland-Blow Stave Co., inc.,  
and is now the home office. It was  
founded in 1903 and has been doing  
business since that time without a  
shut-down until it was destroyed on  
November 11 by the most spectacular  
fire witnessed here for some time.

The factory has been one of the  
steadiest sources of employment in  
the Twin Cities for the past 21 years  
using from 50 to 60 men steadily.

No contracts have been let for the  
rebuilding, as it is intended that as

### FIRST SUBMARINE DESIGNED FOR CONFEDERATES MADE AT MOBILE

(Associated Press)  
MONTGOMERY, Ala., Nov. 26.—  
The first submarine boat was de-  
signed to be used in the Confederate  
Navy and was constructed in Mobile,  
according to an account of the boat  
and her activities during the days of  
the War Between the States from the  
reminiscences of Admiral A. O.  
Wright of the Confederate Navy.

The story as related by Admiral  
Wright is as follows:

"The Hunley was built in Mobile,  
Ala., and was intended for service in  
the Confederate Navy below New  
Orleans, but that place fell before  
she was ready. She was transport-  
ed to Charleston, South Carolina, and  
put into service in the navy there.  
She was about sixty feet long, with  
a continuous windless running from  
stem to stern, forming eight cranks.  
There was a man at each crank, and  
they sat facing each other, four on  
a side.

"The turning of this windless on  
cranks furnished her motive power,  
so that she was run by man power.  
The windless ended in a screw at her  
stern. She had wings or fins on  
each side to guide her downward or  
upward movements, but these failed

### KICK FROM HORSE FATAL TO FARMER; FUNERAL IS HELD

John Prickett Laid To  
Rest Tuesday At  
Antioch Church

### HURT SATURDAY AT SIX MILE HOME

Skull Crushed By the  
Vicious Blow From  
Animal's Hoof

Funeral services were conduct-  
ed by Rev. J. R. Francis at Antioch  
church at 3:30 o'clock Tues-  
day afternoon for John U. Prick-  
ett, who died at the hospital here,  
as a result of a kick in the head  
by a horse at his home in the  
Six Mile neighborhood in the  
eastern section of the county.

Mr. Prickett, who was a well-  
known farmer, was hurt last  
Saturday. Realizing the serious  
nature of the wound, he was  
rushed to the hospital here and  
given every medical attention.  
The examination here revealed  
that the skull was crushed and  
little hope was ever held for his  
recovery.

He is survived by his wife,  
three daughters, Mrs. Ed Stan-  
sell of Birmingham; Mrs. N. E.  
Stansell and Mrs. J. R. Beaver,  
of Eva.

### Christmas Orders Coming In Faster As Season Nears

The orders for Christmas cards  
through the Daily to Harcourt &  
Company world renowned en-  
gravers of Louisville, Ky., are  
coming in every day now as the  
holiday season rapidly approach-  
es. Many are taking advantage  
of the early days so that the  
last minute bustle and rush will  
not find them without cards to  
send their friends for the Christ-  
mas season. The cards are the  
finest that can be purchased eco-  
nomical in price and distinctive in  
style and quality. Call by today  
and see the samples of the lines.

### Seeking to Remove Illinois Governor

Illinois is watching its Executive  
Mansion with considerable interest,  
since Governor Len Small may be  
removed from office if charges  
against him be sustained. Master  
in Chancery Briggles has alleged  
that the Governor improperly used  
\$2,000,000 while he was State  
Treasurer. The charges were aired  
in the Circuit Court of Sangamon  
County.

### WOMEN DEMAND HIGHWAY BEAUTY

### Federation Sponsors Improvement Of Landscapes

(Associated Press)

MONTGOMERY, Ala., Nov. 26.—  
A campaign in the interest of beau-  
tifying the highways of the state is  
being sponsored by the Alabama Fed-  
eration of Women's clubs. Action  
has already been taken in several  
cities for this work it has been an-  
nounced here.

The undertaking has been endor-  
sed by the State Highway Department  
and Major Page S. Bunker, state for-  
ester has agreed to assist in plant-  
ing trees along many of the road-  
ways, according to Mrs. I. T. Quinn,  
director of the division of highway  
beautification of the state federation.

"While our commissioners are en-  
deavoring to build our roads and giv-  
ing their attention to the kinds of  
surfaces, etc., is it not fitting that  
the women of the state should inter-  
est themselves in beautifying the un-  
sightly appearance of most of our  
highways?" Mrs. Quinn asked in ex-  
plaining the program of the federa-  
tion.

"Although the work is in its in-  
fancy," she said, "the Axis Club of  
Gadsden is going to plant ten miles  
of trees, from Gadsden to the St.  
Clair county line; Ensley in from  
Ensley to Birmingham; Woodlawn is  
taking up the work. At a meeting  
of the board of directors of the Mon-  
gomery city federation they voted to  
beautify a stretch. We want to inter-  
est Mobile in beautifying some  
stretch, probably the John Craft  
highway," Mrs. Quinn added.

### Clopton Re-elected By Ice Cream Men

J. W. Clopton has just returned  
from New Orleans, where he was re-  
elected secretary-treasurer of the  
Southern association of Ice Cream  
Manufacturers for the sixth consecu-  
tive term.

S. M. Sutton, of Vicksburg, Miss.,  
was elected president, J. D. Kinett, of  
Macon, Ga., vice president, and one  
director was elected from each state.

The organization is made up of five  
southern states. In December 1925  
the convention will meet in Lexing-  
ton, Kentucky.

### GIGANTIC RAIDING SQUADS 'CLOSING' CITY WEDNESDAY

All Authorities Move  
To Bring the Crime  
Wave To End

### SUSPECTED GANG HANGOUTS CLOSED

Many Resorts Already  
Had Locked Doors  
Before the Visit

(Associated Press)  
CHICAGO, Nov. 26—Raiding forces  
combining resources of the state's at-  
torney's office, sheriff and police de-  
partments have begun what officials  
plan to be the most concentrated  
drive against criminals Chicago has  
ever known.

Squads last night and early today  
visited all sections of the city and its  
suburbs, closing suspected places and  
arresting caretakers.

Owners of some resorts, the raid-  
ers reported, had already locked their  
doors and deserted the premises.  
Michael Hughes, former detective  
chief, who resigned after he was  
transferred to an outlying section,  
said he would withdraw his resigna-  
tion.

The coroner's jury investigating the  
death of Eddie Tancil, shot Sunday,  
and Dean O'Banion, shot two weeks  
ago, continued its inquiry into organ-  
ized crime, after visiting Tancil's home  
yesterday.

Tancil's funeral was set for today.

CHICAGO, Nov. 26—William Altir  
was hurled several feet into the air,  
his clothing was torn to shreds and  
he was probably fatally injured today  
when a bomb exploded near his house  
as he was passing on his way to work.

Several other persons were slightly  
injured and windows and furniture  
were broken by the concussion. The  
bomb was exploded at the entrance of  
a store on the first floor of a 16  
story apartment building.

Forty five persons lived in the  
building and many of them were cut  
by broken glass and plaster.

Batteries found a block away were  
used to set off the bomb, according to  
the police.

The store against which the bomb  
apparently was aimed, is owned by  
Aleck Apuzzo, butcher and grocer  
who said he was unable to account for  
the blast, asserting he had received  
no threats or warnings.

### TWO STORES BURN IN FALKVILLE FIRE

### Local Department To Scene To Save the Ellenen Station

A fire of unknown origin last night  
destroyed the Cook Grocery company  
and the Waldrop Barber Shop at  
Falkville. The losses are practically  
total, according to reports, with no  
information available as to insurance.  
The burned buildings were the only  
wooden structures in the block, but  
several brick buildings were near.  
Active efforts of local citizens pre-  
vented the spread of the fire. The  
Louisville and Nashville fire depart-  
ment of the Twin Cities was called  
out to insure the safety of the L. & N.  
R. R. depot at Falkville.

The destroyed buildings were locat-  
ed on the east side of the L. & N.  
R. R. and just north of the Owl Drug  
Company's store.

Curtain Comes Down Thanksgiving Day  
As Ancient Rivals Play Off Grid Affairs

The regular Thanksgiving battles will be engaged in on Thursday when the old time rivals of years and years meet on various gridirons through the south, east and west.

The headliner of the day in southern circles is the championship row between Georgia and Alabama. The Crimson will not have the advantage

of any reserve power for the Bulldog is bringing three teams to Birmingham to insure against this trouble. Alabama, smarting under the defeat handed them by Center, is due to stage a comeback and as proof of their belief in this fandom is backing Alabama in the face of the overwhelming defeat handed Georgia last year when they were slated to give the Tide a real tussle. Vanderbilt has sent the Champ Pickens trophy, won by them last year, to Birmingham for the two teams to battle over.

Washington and Lee and Florida play North Carolina State and Drake University respectively for their Turkey Day activities prior to their meeting in Jacksonville in a post season affair on December 6. Should these teams come through tomorrow in good shape and the Tide and Georgia tie in their tilt then the championship will be settled in the post season affair at Jacksonville.

Auburn and Georgia Tech battle for the 26th time in Atlanta with Auburn having won 17 games and with one tie. This game is one of the largest on the entire card of both schools regardless of what the remainder of their seasons has been. Both teams are in the best of condition and it is expected that this game will provide one of the best afternoon entertainments in the south.

Up in Nashville Vanderbilt and Sewanee settle their ancient grudge with Sewanee as usual the underdog, but nevertheless determined to fight the Commodore to the last ditch. This game has always been one of the features of the Thanksgiving menu and is witnessed by thousands of fans in the mid-southern states.

Another game that draws great crowds and intense interest is the meeting of the two military institutions in Virginia where Virginia military and Virginia Polytechnic battle at Roanoke. This game is almost a junior Army-Navy affair with plenty of local color added in a military way. Both teams are supported by their entire student bodies and heavy marching orders are participated in all over the city until the rivals line-up for the opening.

The North Carolina University and Virginia game is another classic in southeastern circles that brings out the best that is in both teams and both teams realize that the season is to be branded as a success or failure if the game is won or lost.

Mississippi Aggies go to the west to fight Washington University at St. Louis and Bo McMillan's Centenary team engages St. Louis University at the same point.

Tulane and Louisiana meet at Baton Rouge while the Tennessee Volunteers meet the Kentucky Wildcats at Knoxville in another prominent game of the closing 1924 season.

In the east Pittsburg and Penn-State meet in one of the most interesting games of the entire season. Washington and Jefferson meets West Virginia in a contest that will greatly determine the strength of several eastern teams in view of the fact that both have met some of the hardest eleven in gridiron fame today. Columbia plays Syracuse.

Army and Navy play on November 29.

Thousands Have  
Kidney Trouble and  
Never Suspect It

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview of the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. Dr. Kilmer's Swamp-Root is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

merged. The torpedo was pulled down and struck the Housatonic amidships, about ten feet below the water line, and exploded, destroying her, several hundred men losing their lives.

"A few were picked off from her rigging who were saved. When the explosion occurred the little Handley" was probably fifty feet beyond her. The concussion disarranged her navigation functions and she never rose to the surface again. Years after when the wrecks were being removed from the sea off Charleston Harbor, there lay the wreck of the Housatonic, and about fifty feet away lay the wreck of the little Handley with eight skeletons aboard, not drowned but asphyxiated."

Such is the story of the Handley, the first submarine that ever did this deadly work under the water at sea on a large scale.

## A WIFE'S CONFESSIONAL

Adele Garrison's New Phase of Revelations of a Wife

The News with Which Dicky Met Madge.

EDITH'S second telephone message, while it held no especially good news, at least contained no fresh cause for alarm. Mother Graham was still unconscious, Edith reported, but they had been able to secure a competent physician who was working over her, and a hospital nurse was on the way to the house. The physician, of course, would give no verdict as yet, but there was that in Edith's voice which told me that she was not so frightened as she had been.

"How soon can you leave?" she asked, when she had finished giving me the essential news.

"Within ten minutes," I promised, and then for the first time, so urgent had seemed the need for haste on my part, I thought of the person whose enlightenment should have been first in my thoughts.

"Does Dicky know?" I asked.

Edith's Request. "Oh, of course," she answered promptly—too promptly my jealous heart whistled while I flushed at my own meanness of spirit. "I telephoned Dicky even before I did you, but I couldn't get hold of him until a few minutes ago. He's rushing out by taxi. Is there any message you wish me to give him?"

"Nothing except that I'm coming in as quickly as I can," I answered. "By the way, I shall have to bring Junior and Marion with me, so I thought it would be a very good thing to bring Katie along also, subject, of course, to your approval."

"That will be splendid," she commented with apparent heartiness, and even my captious spirit could find no flaw in her cordial manner. "I'll tell Dicky. Do you want to hear how we found your mother-in-law?"

"I don't think I ought to wait to hear it," I answered. "Unless, of course, it's something you think I ought to hear before I come down."

"But it isn't," she said, quickly, "and I won't keep you any longer. Oh, by the way, you bring your electric heating pad and one of those tiny electric grills? We don't know what we may need here."

Her request puzzled me a bit, for I knew the Durkee household to be extremely well appointed, but naturally the only comment I made was a promise to bring the things she had requested. Then we exchanged hasty good-byes and a moment later I bade adieu to Dr. Pettit, noticeably reticent now that there was no more need of his professional services.

"Will you tell Mrs. Elckett where I have gone, when you go to the hospital today?" I asked, at parting, and he gave me a meticulous promise to inform Katherine of what had happened.

"She's Asking for You!"

A precious minute of the ten I had set myself in watching her stiff, graceful figure climb into his car, and wondering how any man could combine such rare sympathy and professional skill with so stiff and repellant a personality. I gave up the answer to the problem, as I had done many times before, and hurried through my preparations for departure, for the second time within twenty-four hours leaving Jim the sole occupant of the farm.

Though I drove as fast as I dared it was mid-afternoon when we reached the Durkee home, and I realized, as I turned into the familiar driveway, that the hard-worked smile of "heart in one's throat" had lost no whit of its truth. My own throat was so dry and constricted with fear that I found myself

## YOUR HEALTH

### Here Are Scientific Facts About Kissing and Disease

By ROYAL S. COPELAND, M. D., United States Senator from New York, Former Commissioner of Health, New York City.

PERHAPS you read the order which has been issued by the Soviet Commissioner of Health in Russia, forbidding kissing. He contends that this is a prolific means of spreading disease. This cruel man objects even to the custom of kissing a lady's hand. In line with this, in many departments of the government, handshaking has been prohibited. The conventional salute is recommended.

The Commissioner goes the whole route. He advocates a ban on smoking. He urges smokers to give up tobacco and to take candy instead.

There is nothing original about these suggestions. Every time we have an epidemic, there are many doctors who rise up to contend that kissing and handshaking should be prohibited. These restrictions were strongly urged during the recent influenza epidemics.

There can be no doubt that acute infections like common colds, influenza, scarlet fever, measles, mumps, diphtheria and pneumonia are transmitted by means of the moist secretions of the nose and mouth. Of course kissing makes transfer not merely possible but easy.

It will be difficult to change the practices of this generation. The particular customs referred to here are so firmly grounded that he is a brave Commissioner of Health who sets out to change them.

It is a pity there is not universal knowledge and practice of the things that make for good health and long life. Then, if we really believe certain things about the transmission of disease, why do we not practice them?

When you have a cold or one of the diseases I have mentioned, be careful to have the glasses, china and other utensils you use in eating, carefully boiled. This will protect others against your particular ailment. The toilet articles must be used with equal care. The wash-

basin, towel and soap must be cleaned after your use of them.

When there are epidemics of any sort, you should take the greatest pains to wash your hands frequently and always do so before you eat. This should be your habit at all times. On your return home at night, wash your hands, face and inside of your nostrils with soap and lots of water. Brush your teeth thoroughly.

If you will do this every time you go home, a reasonable amount of kissing in your family may do no particular harm. If the kisser or the kissees have a cold, then it is probable that misery will have company.

With scrupulous cleanliness as the universal practice of the human family, the acute infections will grow less and kissing will be safer.

### Tomorrow's HOROSCOPE

By Genevieve Kemble THURSDAY, NOVEMBER 27.

According to the peculiar quality of the planetary influences dominating Thursday, November 27, the experiences of the day may be expected. Although the prevailing forces come from the eccentric and always intriguing Neptune, who operates in the most erratic manner, he is in friendly mood, especially for new projects, diplomatic negotiation of all transactions and for secret orders and closed corporations. Saturn is also friendly, but Mars enjoin a care as to tongue, temper and law. Likewise, ship travel, possibility of change and accident.

Those whose birthday it is have the prospect of a year of peculiar events and experiences, not of necessity adverse if care be taken not to precipitate quarrels, rash acts and litigation. Also be careful as to physical safety. Calm and close application to business may forestall complications. A child born on this day is likely to be versatile, clever and have unusual phases of talent or character, but may be rash, troublesome and hard to manage unless well trained in youth.

The smart terra cotta tone is very effective when it appears in a frock for chilly afternoons of winter.

The dress here is bright and youthful in feeling. It is made of all of the terra cotta crepe except for three diamond insets of black satin that mark the front of the hem.

The stitching is done in gold thread and it makes small diamond designs on the sleeves and larger ones on the front of the frock.

## WINIFRED BLACK WRITES ABOUT Your Thanksgiving

Copyright, 1924, by Newspaper Feature Service, Inc.

WHAT kind of a day will you have for Thanksgiving—in your part of the country?

Cold and bright, with just enough snap in the air to make a good big fire—the best friend in the world—the ground beginning to freeze a little—and all around the foot of the maples and the oak and the big old sycamores great heaps of Autumn leaves, scarlet and gold—rich browns—as if some king had cast his worn-out cloak away before he bought his new suit of ermine!

Smoke in the air—blue smoke—and everywhere the smell of burning leaves. Cornstalks in the shock, the big yellow pumpkins in the field and the old farmhouse fairly bursting with good cheer and good will and hospitality and light-hearted happiness?

Or is it a cold, drizzly, soggy day, with the wind blowing a gale and the rain beating a tattoo on the windows?

What? You live in the city and aren't even invited to the country for Thanksgiving? Poor you! But, anyhow, let's make the best of it.

Strangers for dinner? Not if there's a third cousin and an aunt by marriage left in the world. Thanksgiving Day is home day—or ought to be.

### Let's Gather Them Around Us.

Let's see—how long since you've seen old Aunt Katy, the one who used to make the cookies you liked when you were just starting to school?

Wonder what she's going to do to-morrow? They say she's not so well off as she might be and a good deal of a crank. Well, maybe you'd be a crank if you were alone and old and poor and nobody loved you.

Let's whirl down to Aunt Katy's and carry her off to Thanksgiving dinner willy-nilly, and when we get her there let's not sit and talk over her head about jazz parties and somebody in the Follies and some book some friend has written. Let's talk Aunt Katy-talk to Aunt Katy; let's make her feel that she's well-loved and appreciated, after all. Let's make her see that we remember those cookies and let's ask her to bake us a batch of them for Christmas.

Just watch Aunt Katy's face light up—it will be worth the effort.

Old Cousin John lives at a grand club downtown—he's probably got a dozen invitations for dinner, but he may be lonesome and want to see some of his old kith again for all that.

Cousin John has a heart in his breast—if he is a rich old bachelor with all the scheming mamas after him for their daughters.

Don't make a fuss over him, so he'll think you're after his money. Let's just be human for once and act as if we thought he was human, too. How do you know how tired he is of the pretense and the falsity and the shallow nonsense that must get pretty tiresome to him sometimes.

## Last-Minute Beauty Hints for Thanksgiving

By LUCREZIA BORI The Famous Spanish Prima Donna

TO the housewife Thanksgiving means a day that is spent in creating happiness for others. She bustles about for days ahead planning the menu for her Thanksgiving dinner and ordering the supplies that will be necessary. More often than not, she invites others to share in the family Thanksgiving.

and the invited guests are usually those who have not a family Thanksgiving dinner of their own to which to look forward.

This is why I believe the housewife deserves special consideration on this day, and why I have planned a last-minute beauty hint or two to meet her special needs!

If you have been peeling vegetables, slicing fruits and chopping nuts for the salad you will doubtless find that your hands are stained and darkened from your activities. When you remove your apron and prepare to take your place at the Thanksgiving dinner table and preside as the gracious hostess you will want to remove these stains. Send now to the drug store for the following mixture and have it near at hand to use:

Glycerine ..... 2 ounces

Water ..... 2 ounces

Lemon juice ..... 4 tablespoonsful

1 alcohol ..... 4 drams

Use borax in the water in which you wash your hands. This, in addition to a good soap, will remove all traces of grease and dirt. Then apply your lotion for the removal of stains, and your hands will emerge as white as when they were before you began your Thanksgiving preparations.

## Three-Minute Journeys

By Temple Manning

WHERE A PLAY MAY RUN AN ENTIRE YEAR.

WHEN one of our theatrical producers finds that his new play lasts more than three hours, he immediately devotes all of his energies to cutting it down. The patience of his audience will not survive anything as long as this or perhaps the main schedule will force many to leave in the middle of the performance if it is too long.

But life in Sicily is more leisurely. The Sicilians have more time to enjoy their pleasures and they take

watch with breathless interest the incidents of the all-year-round serial incidents of "Charlemagne and the Twelve Paladins," are delighted by the familiarity of the words and business. They have very little interest in novel things. Theirs is the pleasure of the connoisseur who compares this performance with another and weighs their respective merits. Then there are six-month-long dramas whose words and business have been handed down from generation to generation for centuries. These are all favorites.

The marionettes of Sicily are operated by families who have passed their art on from father to son. As soon as they are old enough to toddle, the children learn to hold the strings by which the puppets are worked in their little fingers. By the time they are old enough to be of real use they know everything about the staging, costuming, making and operating of the marionettes.

The whole family participates in the production. The father sets the stage and manipulates the strings. The sons repair the armors of the toy knights, the daughters make the costumes and the mother provides the incidental music.

The election went off very quietly but with too much power to suit loyal democrats.

Many single men as well as others are now becoming married to crossword puzzles.

Since the advent of the auto it is never safe to count your chickens before they have crossed the road.

John W. Davis is proud he was born on the same day as the founder of the democratic party. But is there such a party outside the solid south?

Thanksgiving day is the 331st one of the present year, that gives some idea how near Christmas is.

It will be pretty hard to get up speed after leaving corners, and congested districts in the Twin Cities, as those things are so numerous among us.

Because they murdered Sir Oliver Stack, the Egyptians have been forced to concede about every thing except the Pyramids, and the Nile river.

We are getting plenty of newspaper talk to the effect that the Shoals matter is to be forced through congress at the coming session. Southern senators insist they are not going to allow the issue to be sidetracked. That it's place of priority on the calendar of the senate will be maintained no matter what turn may be necessary for a settlement. This is a melodious manifesto to the ears of local residents. That is exactly what we want "nothing else but." Such a consummation is devoutly to be wished. For as it would be convergence of the trial and the rainbow at a common point. It is a siren song, too good to be true, but few have the courage to turn away. So here is hopin' that it will all end like a story book and that everybody will be happy ever after.

By another year we can begin to advertise Lake Wilson as a summer resort and a sportsman's paradise. The beautiful shores of this magnificent body of water will begin to attract the tourist and the cottager and the water itself will lure the angler and the huntsman. Almost before we are aware of it, we will have visitors in such numbers that we will be utterly unable to care for them. It is therefore high time that we proceed with the hotel project. The need is becoming daily more

apparent yet we are no nearer the goal than we were a month ago. The folks of the community are thoroughly sold on the necessity of this improvement and will never co-operate any better than at this time to bring it about. Delays are always dangerous where mass psychology is concerned. And in this waiting. Marking time now is losing time for nothing can be gained thereby. If we are going to put this thing over at all there is imperative need for action.—Florence News.

**THURSDAY AMERICA RETURNS THANKS FOR HER MANY BLESSINGS**

Thursday America again will pause in the midst of her busy activity and devote a day to returning thanks to Him from whom all blessings flow. Thursday is Thanksgiving, a day of feasting and prayer, a day the observation of which was born in a simple desire of the early pioneers to give thanks to God.

The methods of celebration of Thanksgiving have changed greatly since first the Puritans invited the Indians to share their feast, but it is Thanksgiving yet. As a holiday it probably ranks next to Christmas in America, for our nation, indeed, has much to be thankful for. Our state and our community have many things for which they are thankful every year. As individuals there are very few of us who are not thankful to God for what he has done for us in the preceding year.

There is a stirring old hymn which says: "Count your many blessings, one by one. 'Co'unt your many blessings, see what God has done."

The sentiment is typical of Thanksgiving. It is a day of counting blessings.

Here in Albany-Decatur, as a community, we have many things to be thankful for. We have just enjoyed a beautiful fall, a season which made crops bountiful. Our industries have recovered from the summer slump and now are operating full time, giving to their many employees steady employment. Our merchants report retail business is improving. We seem on the threshold of a period of real prosperity for all. It is good to live in Albany-Decatur. Let us be thankful.

**STILL SPEAKING ABOUT MUSCLE SHOALS' FUTURE**

One of the questions of American history perhaps never to be answered is why did those said to favor the development of Muscle Shoals for the greatest good to the greatest number keep the Ford bid from coming to a vote. Now that Ford has withdrawn from the field, those who knew and realized the value of his bid, in an important sense refuse to be comforted by assurances made now, that all elements are uniting to see that the Shoals are properly developed. Unless a miracle, to have any agency, or any man at the Shoals, other than Ford, will be like eating warmed over bread. Of course, if Ford is never to be interested in bidding for the Shoals again, the quicker all hands forget their disappointments the better. It is gratifying to note that Senator Underwood clings to the idea and belief that the power at Muscle Shoals shall not be vended out, but used to produce war making material, if necessary, and for making crop growing material all the time. The American people will never be satisfied with the disposition of the Shoals unless they are made to produce every pound of fertilizer possible. Certainly this will remain the case until it shall appear that the soils of the American farmers are as rich as they need to be. The people are not averse to plenty of electric lights, plenty of power for industrial purposes, but first and foremost, the American people want more farm produce. They want no less of the results of electricity as it is sold, but they want more, a great deal more done by electricity in the taking of nitrogen from the air and making it available for plant life.

Senator Ladd, and men of his kind, always favorable to the Ford bid should have let politics go hang, and should have accepted the Ford bid while Ford was in the right notion. However good and faithful the men may be in the future for the right use of the Shoals power, if their records do not show that they did all within their power to get the senate to vote favorable to the Ford bid, just as the house did, the names of such men have no high place with the independent voters of this nation.

The Holland Blow firm is one of the pioneer industries of this section which has a steady growth since its origin and it has had a great effect on this city, besides other sections. It has had a great influence on the marketing of timber has helped to stabilize river traffic and has contributed a large pay roll in this community for two decades.

The company now operates mills in many other sections of the country, having wide holdings throughout central and north Alabama and some in Tennessee. These mills work for their mutual benefit, dividing their labors and distributing the work, which has greatly influenced the stability the local operations have enjoyed.

Many friends of the Holland-Blow company who are not materially interested in the re-building of the local plant, have through friendship's sake, aided in many ways the work of surveying the territory from which the factory draws its material and have offered information with requests that the firm stay with us.

The Holland-Blow factory has made records in several ways. They operated one factory for 21 years without closing down, during which time there was never a serious accident. # Waffles!

make them in half the time with self-rising flour

1½ cups self-rising flour 2 tablespoons sugar  
1 cup sweet milk 2 eggs  
2 tablespoons butter (melted)

Break eggs in bowl and beat vigorously, then add milk and melted butter or vegetable oil; add sugar to self-rising flour, then combine mixtures. Some flours are drier than others and will take more moisture; if the batter looks thick or heavy, add a little more sweet milk. A heavy batter will not make a crisp, tender waffle.

A book of delightful recipes is offered below; send for your free copy

YOU'LL never be disappointed with the golden-crust waffles you make with self-rising flour. Something about them makes them better than most waffles—far more tender and light and tempting. They are the ideal treat for any meal 'most any time.

Every one who loves good home-cooked foods will find real fun in making self-rising flour waffles. It's no trick at all to mix up a bit of batter, heat the waffle iron and supply a hungry family with this delicious, wholesome food.

The reason self-rising flour makes such good waffles is because the pure rising ingredients (the kind used in the best phosphate baking powder) are already mixed in pure soft wheat flour—just enough to make the waffle batter puff up light and fluffy. This means that you can't go wrong on your mixing. For this reason self-rising flour is the ideal flour to use for biscuits, muffins, pastries and cakes.

In buying self-rising flour remember that it is sold in a number of different grades just as plain flour. The price you pay determines the grade. The Blue Shield of the Soft Wheat Millers' Association on a bag guarantees you healthful, wholesome, dependable flour.

## AMUSEMENTS

Josephine Crowell has been called "the meanest woman on the screen" because of some of the heavy characters she has portrayed, but in "Flowing Gold," the Rex Beach novel produced for Associated First National Pictures, Inc., by Richard Walton Tully, at the Princess Friday and Saturday, she has a sympathetic role, with delicious opportunities for comedy, upon which she capitalizes heavily.

Miss Crowell is well known to screen fans. Perhaps her first notable role was that of the mother in "The Birth of a Nation." She will also be remembered with Frank Keenan in "The County Fair," as a mother in "Hearts of the World," in "Rebecca of Sunnybrook Farm," and more recently as Catherine De Medici with Norma Talmadge in "Ashes of Vengeance."

Miss Crowell was born in Halifax, Canada, and received her education in Boston. She says her only ambition is to become "a really good actress," and many of us will agree that she has long ago attained it.

## WEAK AND NERVOUS

Georgia Lady Says She Has Grown Stronger by Taking Cardui—Thoroughly Convinced of Its Merits.

Claytonville, Ga.—In a statement which she gave at her home on R. F. D. 1, here, Mrs. T. A. Copeland said: "I have, I believe, avoided a good deal of suffering by the use of Cardui, and am thoroughly convinced that it has been of great benefit to me."

"Before the birth of two of my children, I grew so weak and nervous I could hardly go, and suffered... I had a friend who told me of Cardui, so the next time when I grew so weak and run-down I began to use it. I used it three months. I grew stronger and less nervous. The baby was stronger and a better baby, and I really believe it was because I built up my strength with this splendid tonic."

Cardui has been in successful use for more than forty years. Thousands of women have written to tell of the beneficial results obtained by taking Cardui, and to recommend it to others. It is a mild, harmless, purely vegetable medicinal preparation—a product of practical experience, scientific investigation and pharmaceutical skill. Sold everywhere. NC-169

## Hartselle News

Wood fires have been prevalent in every section surrounding this place, and few are being entertained that some serious damage may result. Since the shower Sunday night, there has not been the large amount of smoke noticeable, and it is hoped that many of them might have been stopped by the rain.

A survey by the county health department is said to have revealed the fact that the Danville community

was the drier section in the county. Water, which has been plentiful here up to this time is showing evidences of diminishing and should the drought continue, fear is expressed that there may be a serious shortage.

### CHAPTER XXV (continued)

It was a specious answer. Such words—laying stress upon the victories Allah sent him—had aforetime served to disarm his enemies. But they served not now. Instead, they did but fan the flames of Asad's wrath.

"Blaspheme not," he croaked, and his tall form quivered with rage, his hollow old face grew vulture-like. "She was brought thus in secret out of fear that were her presence known thy true purpose too must stand revealed."

"And whatever that true purpose may have been," put in Marzak, "it was not the task entrusted thee of raiding the Spanish treasure-galleys."

"Tis what I mean, my son," Asad agreed. Then with a commanding gesture—

"Wilt thou tell me without further lies what thy purpose was?" he asked.

"How?" said Sakr-el-Bahr, and he smiled never so faintly. "Hast thou not said that this purpose was revealed by what I did? Rather, then, I think it is for me to ask thee for some such information. I do assure thee, my lord, that it was no part of my intention to neglect the task entrusted me. But just because I feared lest knowledge of her presence might lead my enemies to suppose what thou art now supposing, and perhaps persuade thee to forget all that I have done for the glory of Islam, I determined to bring her secretly aboard."

"My real aim, since you must know it, was to land her somewhere on the coast of France whence she might return to her own land and her own people. That done, I should have set about intercepting the Spanish galleys, and never fear but that by Allah's favor I should have succeeded."

"By the horns of Shaitan," swore Marzak, "thrusting himself forward, 'he is the very father and mother of lies. Wilt thou explain this desire to be rid of a wife thou hadst but wedded?'"

"Aye," growled Asad. "Canst answer that?"

"Thou shalt hear the truth," said Sakr-el-Bahr.

"The praise to Allah!" mocked Marzak.

"But I warn you," the corsair continued, "that to you it will seem less easy to believe by much than any falsehood I could invent. Years ago in England where I was born I loved this woman and should have taken her to wife. But there were men and circumstances that defamed me to her so that she would not wed me, and I went forth with hatred of her in my heart. Last night the love of her which I believed to be dead and turned to loathing proved to be still a living force. Loving her, I came to see that I had used her unworthily, and I was urged by a desire above all others to undo the evil I had done."

On that he paused, and after an instant's silence Asad laughed angrily and contemptuously.

"Since when has man expressed his love for a woman by putting her from him?" he asked in a voice of scorn that showed the precise value he set upon such a statement.

"I warned thee it would seem incredible," said Sakr-el-Bahr.

"Is it not plain, O my father, that this marriage of his was no more than a pretense?" cried Marzak.

"As plain as the light of day," replied Asad. "Thy marriage with that woman made an impious mock of the true Faith. It was no marriage. It was a blasphemous pretense, thine only aim to thwart me, abusing my regard for the Prophet's Holy Law, and to set her beyond my reach."

He turned to Vigitello, who stood a little behind Sakr-el-Bahr.

"Bid thy men put me this traitor into irons," he said.

"Heaven hath guided thee to a wise decision, O my father!" cried Marzak; his voice jubilant.

But his was the only jubilant note that was sounded, his the only voice that was raised.

"The decision is more like to guide you both to Heaven," replied Sakr-el-Bahr, undaunted. On the instant he had resolved upon his course.

"Stay!" he said, raising his hand to Vigitello, who indeed had shown no sign of stirring. He stepped close up to Asad, and what he said did not go beyond those who stood immediately about the Basha and Rosamund, who strained her ears that she might lose no word of it.

"Do not think, Asad," he said, "that I will submit me like a camel to its burden. Consider thy position well. If I but raise my voice to call my sea-hawks to me, only Allah can tell how many will be left to obey thee. Darest thou put this matter to the test?" he asked, his countenance grave and solemn, but entirely fearless, as of a man in whom there is no doubt of the issue as it concerns himself.

Asad's eyes glittered dully, his color faded to a deathly ashen hue.

"Thou infamous traitor—" he began in a thick voice, his body quivering with anger.

"Ah no," Sakr-el-Bahr interrupted him. "Were I a traitor, it is what I should have done already, knowing as I do that in any division of our forces numbers will be heavily on my side. Let then my silence prove my unswerving loyalty, Asad. Let it weigh with thee in considering my conduct, not permit thyself to be swayed by Marzak there, who reckons nothing so that he vents his petty hatred of me."

"Do not heed him, O my father!" cried Marzak. "It can not be that."

"Peace!" growled Asad, somewhat stricken on a sudden.

And there was peace whilst the Basha stood moodily combing his white beard, his glittering eyes sweeping from Oliver to Rosamund and back again. He was weighing what Sakr-el-Bahr had said. He more than feared that it might be no more than true, and he realized that if he were to provoke a mutiny here he would be putting all to the test, setting all upon a throw in which the dice might well be clogged against him.

If Sakr-el-Bahr prevailed, he would prevail not merely aboard this galleon, but throughout Algiers, and Asad would be cast down never to rise again. On the other hand, if he bared his scimitar and called upon the faithful to support him, it might chance that, recognizing in him the exalted of Allah to whom their loyalty was due, they would rally to him. He even thought it might be probable. Yet the stake he put upon the board was too vast. The game appalled him, whom nothing yet had appalled, and it scarce needed a muttered caution from Biskaine to determine him to hold his hand.

He looked at Sakr-el-Bahr again, his glance now sullen.

"I will consider thy words," he announced in a voice that was unsteady. "I would not be unjust nor steer my course by appearances alone. Allah forbid!"

gan in a thick voice, his body quivering with anger.

"I will consider thy words," he announced in a voice that was unsteady. "I would not be unjust nor steer my course by appearances alone. Allah forbid!"

gan in a thick voice, his body quivering with anger.

"Ah no," Sakr-el-Bahr interrupted him. "Were I a traitor, it is what I should have done already, knowing as I do that in any division of our forces numbers will be heavily on my side. Let then my silence prove my unswerving loyalty, Asad. Let it weigh with thee in considering my conduct, not permit thyself to be swayed by Marzak there, who reckons nothing so that he vents his petty hatred of me."

"Do not heed him, O my father!" cried Marzak. "It can not be that."

"Peace!" growled Asad, somewhat stricken on a sudden.

And there was peace whilst the Basha stood moodily combing his white beard, his glittering eyes sweeping from Oliver to Rosamund and back again. He was weighing what Sakr-el-Bahr had said. He more than feared that it might be no more than true, and he realized that if he were to provoke a mutiny here he would be putting all to the test, setting all upon a throw in which the dice might well be clogged against him.

If Sakr-el-Bahr prevailed, he would prevail not merely aboard this galleon, but throughout Algiers, and Asad would be cast down never to rise again. On the other hand, if he bared his scimitar and called upon the faithful to support him, it might chance that, recognizing in him the exalted of Allah to whom their loyalty was due, they would rally to him. He even thought it might be probable. Yet the stake he put upon the board was too vast. The game appalled him, whom nothing yet had appalled, and it scarce needed a muttered caution from Biskaine to determine him to hold his hand.

He looked at Sakr-el-Bahr again, his glance now sullen.

## Facts About Child-birth

It has been proven conclusively that much of the suffering, pain and dread experienced during pregnancy, as well as at child-birth is entirely unnecessary.

An eminent physician, Dr. J. H. Holmes, expert in this science, first produced the great remedy, "Mother's Friend," which aids the muscles and tissues to expand more easily, during the constant readjustment, month after month, right up to the climax of child-birth.

"Mother's Friend" is applied externally. Three generations of expectant mothers have used it. "Pains disappeared in two days after using 'Mother's Friend,'" writes a user. "I owe my life to 'Mother's Friend,'" declared another. Use "Mother's Friend" as our mothers and grandmothers did, start today and experience the wonderful comfort it will give you.

## Railroads Don't Make Their Own Rates

What the railroads charge for their passenger and freight service is a matter of extreme importance to every citizen of the United States. Every fair-minded man and woman believes that the owners of the railroads (nearly two million Americans are directly interested in railroad securities) should receive a fair return on their money invested. For many years this condition has not prevailed.

Contrary to general opinion, the railroads do not make their own rates, this being the principal duty of the Interstate Commerce Commission, a governmental bureau which has for many years established and controlled the making of all interstate rates and supervised the work of various State Railroad Commissions in making intra-state rates. The only thing new about rate making is the designation on the part of Congress, through the Esch-Cummins bill, (Sec. 15-A of the Interstate Commerce Act) of what is considered by Congress as "a fair return."

This figure was fixed on March 1, 1922 at 5%—at which it now stands. The Government does not guarantee any return to the railroads, but simply says that for rate making purposes the roads are permitted to earn 5% upon their aggregate property value. This is the particular section of the so-called "Transportation Act" that is being so much discussed by politicians and will receive so much of the attention of Congress.

The railroads believe that they should be given the opportunity to operate under this act until there is a demonstrated need for its revision. Great improvements have been made in railroad service during the past two years—the roads are handling the largest volume of business in their history and are rendering outstandingly good service to the American people—yet, they have never earned the permitted "fair return" of 5%. Does this look like rates are too high?

Why tamper with the Transportation Act? Give it a chance!

# THANKSGIVING DAY

**W**E WILL be closed all day Thanksgiving Day, pausing in reverence to the Lord Above who watches over us, prospers us, guides us in the paths of righteousness, and teaches us to be God fearing bearing nothing but love and good will for our fellowmen.

Centuries ago the Pilgrim Fathers halted in their exploration of a new found country, a territory that was fraught with dangers of every sort, starvation, privation, even death, to give thanks to the Lord above who watched over them and prepared them against their worst enemies, themselves.

Tomorrow we pause in the same reverence to the great guider of the universe who watches over us year after year as we go on prospering in our communities and within ourselves.

We close in order that we may enjoy Thanksgiving Day to the fullest extent. We the undersigned merchants will close our respective places of business for the entire day.
